How to submit RESULTS for this VULTRA® – very IMPORTANT

Whether you're a seasoned Phoenix WORLD virtual runner or completely new to Phoenix WORLD, please read this section carefully because it might be different to the way you usually submit results.

The JOGLE VULTRA is a bit **different** because the event spans a potentially very long period of time and you'll be completing multiple runs during the event. You might choose to do more than one run in a day, which is absolutely fine, or perhaps you'll have a few days off and then keep running which is also fine. Basically for this event you submit results **run-by-run as you complete each run**. You definitely don't have to wait until the end of the event to submit results.

Here's the nifty bit – When you 'submit a virtual run' result towards this event then that particular mileage and time will go into the main results list for the event against your name. This VULTRA event will **NOT** disappear from your 'submit virtual results' list after you submit a result but rather will allow you to self submit a second result and a third result and so on. You can submit as many run results as you like over the event period, including multiple runs in a single day. Each time you submit a run, they will go into a 'pending' status in your Phoenix World and you get an email. Once approved (usually really quickly) you'll receive a second confirmation email and your results will be added to the overall total under your name in the main results. I.E – the system will do all the work in adding up your time and distance as you go.

Here's the really, really nifty bit.....

The Results Display and Map

Results for the JOGLE VULTRA can be found here -
<https://www.phoenixrunning.co.uk/results/virtual-jogle-vultra-unlimited/2020>

We also have a map which will show your progress as you run. You get your own red pin which will display your name, overall time and overall mileage.

The JOGLE VULTRA map and overall landing page can be found here –
<https://www.phoenixrunning.co.uk/landing/virtual-jogle-vultra-unlimited>

How to submit your results (step by step)

Here's exactly how to self submit your results during the event and it's really easy.

- Log into Phoenix WORLD
- Press 'Submit Virtual Time'
- Choose the correct event from the drop down (tick the box to the left of the event)
- Date: fill out the date dd/mm/yy
- Distance (usually entered in miles, although you can change to km's in your settings): please enter your **distance** for that particular run only
- Run time: please enter your **time** for that particular run only (the system will add everything up for you as the event unfolds)
- Evidence: we only need 1 screen shot per run, a photo of your GPS, Strava screen shot etc, etc – note file size up to 2mg.
- Press the 'Submit Virtual Results' blue button – job done!

- You get a confirmation email every time you submit results and a second confirmation email when your results are approved – please check that you have received these emails and please check that your times and distances are showing in the results table.

Repeat the above each time you go for a run.

MEDALS

Getting your awesome medal is based on submitting results, so please don't wait and do this until after the event is over. Please submit results as you complete each and every run. When you reach your ultimate goal of 813 miles we'll know you are finished, you will move to the 'Completed' section, you'll get a congratulations email, your finishers' certificate will appear for download and we'll send your medal automatically.

Extra Info.

The JOGLE VULTRA is the next level in our popular VULTRA series and was always going to be something a bit special as we're based in the UK and know much of the run route. This is an ideal long term running challenge as our JOGLE VULTRA gives you an almost unlimited amount of time to complete it. Starting from the minute you sign up you have pretty much as long as you like (up to 5 years initially) to cover the mileage and it really does have something for everyone; from seasoned ultra runners to those who are new to running and want to try something totally epic. You can complete this VULTRA on your own terms; take a few months, take a year, take 5 years; do as much or as little mileage as and when you like and keep chipping away until you reach the finish line at the famous signpost at Lands End. Oh and of course there will be the epic bling – obviously. This medal is awesome!

The route from John O'Groats to Lands End is generally regarded to fall somewhere between 812.77 miles and 875 miles depending on your mode of transport – car, bike or legs! Our challenge is a virtual running challenge so we've carefully mapped out the shortest known running route to mirror the route usually used for the JOGLE record attempts or as close to it as possible. Our JOGLE VULTRA is 813 miles long. Strictly speaking no two JOGLE run routes are ever exactly the same.

The exciting bit.....

You'll get a bespoke, sequential BIB when you sign up. There will be a route map and a central results and progress landing page on the Phoenix Running VULTRA tab on the website. Each competitor will have their own virtual location pin (complete with their name and BIB number for tracking your virtual progress). You can even add your profile picture in your Phoenix World settings. Once you start your virtual run you'll submit your mileage as you go which, once approved, will automatically move you along the map. The route is 813 miles along the shortest known JOGLE route. Once you've submitted enough mileage to get to the finish line at Lands End then you are an official finisher of the JOGLE VULTRA - Unlimited! Your total miles and total time will be added to the finisher results, you'll show as 'COMPLETE' and be able to download your finishers' certificate and we'll send you your epic bling!

This is a challenge for literally anyone of any running ability. If you're new to running, fancy having a go at something epic, or fancy your first foray into multi-day endurance challenges, want to practice running consistent distances over consecutive days, or just want to see how many miles you can run over a few months or a year or two or three or five then this is for you.

We also have a LEJOG VULTRA, so basically this route in reverse, so you could always do an 'out and back'.

So there you have it – easy right?

It's going to be epic, VIRTUALLY!
